The bride has given much time and work for the Chester Avenue Chapel, in which she was greatly interested. "Only immediate relatives were present at the wedding and the happy couple left that night for a trip to the home of the groom in Vermont and other places. They will be at home after September 15. The couple received many valuable gifts, among them being a check for \$75, from a former employer of the bride."

## DEATH OF DR. CHARLES C. RUBLEE

One of Lamoille County's Best Known Physicians. Had Practiced in Morrisville for Over 30 Years

Although expected for some time, the death of Dr. Charles C. Rublee, which occurred Monday morning at about 8:30 o'clock, came as a severe shock to this community, where for over 30 years he had been a well-known and highly respected physician. The cause of death was from the effects of diabetes, from which he had been a sufferer for the past two years or more, although he did not give up active practice until three weeks and two days before the end came.

In the death of Dr. Rublee Morrisville loses a good citizen, a kind neighbor and a man who had given the best of his whole life to his profession, and his family a kind and indulgent husband and father.

As a physician he was well-known throughout the County and at the time of his death was serving as president of the Lamoille County Medical Association. He had held the office of health officer here for many years and for the past eight years had been chairman of the Board of Pension Examiners. He served in this capacity four years under President Harrison.

The funeral was held this afternoon at the home, the attendance being restricted to members of the family and Masons. Rev. George N. Kellogg officiated, assisted by Rev. C. C. St. Clare and the bearers were Drs. George L. Bates of this place, John Morgan of Stowe, A. J. Valleeau of Wolcott and E. Brush of Cambridge.

The burial was with Masonic honors, under the direction of Mt. Vernon Lodge, F. & A. M., interment being in the family lot in Pleasant View Cemetery. Several members of Palestine Commandery of St. Johnsbury were in town and attended the funeral in a body.

Chas. C. Rublee was born at Montpelier in 1852, the son of Dr. Chauncey M. and Sarah Rublee of Montpelier. His mother was a daughter of Dr. Charles Clark, a veteran physician of that town. His academic education was obtained in its public schools and at Barre Academy under Jacob Spaulding. He attended Dartmouth college one year, but in 1869 began the study of medicine in the office of Dr. J. E. Macomber of Montpelier. He attended one term of medical lectures at Harvard and two terms at Burlington, and 1873 graduated from the College of Physicians and Surgeons of New York City.

While at Burlington and New York he acted as assistant of Benj. Howard, professor of surgery. Soon after his graduation he settled in Morrisville where he had since practiced with the exception of one year at Montpelier and six months in the west, and here he had a large professional acquaintance. In April 1873, Dr. Rublee married Kate Spier of Waterbury, Vermont, who died in 1897, leaving four children, Sarah J., wife of F. M. Pike of Mansfield, Ohio, Edna S., wife of W. M. Sargent of this place, Emily, wife of B. A. Palmer of Wilder, Vt., and George, who is now a student at the U. V. M. Medical college. Dr. Rublee married again in May, 1898, taking for his wife Miss Lou C. Mooney of Burlington, who with the above children survive him. A son, Charles C., was born to them and died about two years ago.

He was a member of Mt. Vernon Lodge, No. 8, F. & A. M., having been made a Mason in 1874. He was Master of the lodge in 1893-5. He was also a member of Tucker Chapter, R. A. M. of this place, Palestine Commandery of St. Johnsbury and of Mt. Sinai Temple of Mystic Shriners. The business places in town were closed during the funeral out of respect to the deceased.

## Morristown Highway Improvements

Road Commissioner Barrows has received notice of the amount apportioned for the state road, which is about \$675 and it is to be expended in building permanent road, beginning at the Stowe line on Laport road and building toward Morrisville. Mr. Barrows now has three gangs of men at work on the roads in town and is making improvements which will be much appreciated. A new highway has been laid out in the west part of town, connecting the highways leading past Alfred Dodge's farm and that leading to the home of James Rock. The new road is about 161 rods in length. A gang of men is now working on the new road and when it is completed eleven families will be added to I. Newton LeBaron's R. F. D. route No. 2. They are H. W. Drowne, Frank Strong, M. Briggs, James Rock, Gavin Tyndall, John Tyndall, Messrs Jacobs, Noble Hill, Alfred Dodge and Hugh Savage.

A gang of men is also at work making permanent work between this place and Elmore. They are widening this road and putting in new culverts.

Dr. A. A. Minott will go to New York next week for a few days' vacation, going Wednesday and returning the following Tuesday. The office will be open for appointments.

## SPECIAL VILLAGE MEETING

Village Votes to Continue the Concrete Walks. Total Expense of Walks Will be \$7,500

According to the warning a special village meeting was held at Town Hall last evening, a goodly number of citizens being present. In the absence of President T. C. Cheney, the meeting was called to order by Trustee A. N. Boynton and the warning was read by Clerk A. A. Niles. The first article in the warning was disposed of by a report from the Trustees to-date, which was given in a concise manner by Trustee Cheney. The report follows:—

### TRUSTEE'S REPORT.

General village expense account.

Gravel bed	\$110 05
Old bills	62 50
Printing bills	20 00
Sprinkling streets	40 31
Police duty	25 50
Highway and sewer	862 13

Total general expenses \$1120 49

Expense of walks to date \$5,500

Am't estimated to complete walks 2,500

Total expense 8,000

The expense of \$862.13, credited to highways and sewers, includes the work on the Congress street fill and the work of cleaning streets after the concreters.

C. H. A. Stafford spoke in favor of continuing the concrete work and offered the following resolution which was adopted by the meeting:—

"Resolved, That the Trustees be and are directed to continue the street concrete walks in the parts of the village known as Brooklyn, Jersey Heights and on Bridge street, Upper Main street, Cherry avenue and Congress street to the cemetery, South street and on such other streets as in judgment and discretion of Trustees the convenience of the residents thereon and the public good demands."

W. F. Churchill offered an amendment to the resolutions, that repairs be made on the old walks, the extent of repairs being left to the discretion of the Trustees. Amendment accepted.

A discount allowed the village on account of large amount of work put in at this time and \$200, from the town in part payment for work around the P. A. building, will make the total estimated net expense of the village \$7500. When completed a total distance of 3 1/2 miles of new walks will have been laid, making a total distance of nearly seven miles of concrete, within the village corporation.

Under the third article of the warning E. S. Robinson asked that the name of Clark avenue be changed to Mountain View. The meeting voted to comply with the request of Mr. Robinson. We have been informed since the meeting that this vote was not legal in view of certain conditions of the deed of the land for the street.

Look at the label on your paper. If it has reached the time for which it is paid, call in and renew. Don't blame the post-office people if you do not get the paper.

About these days keep in mind those taxes. The time for expiration of discount will roll around pretty lively.

Harry Nichols and family returned Saturday evening last from a very enjoyable visit of several weeks in the King's Dominion.

W. R. Osgood has severed his connection with the Phoenix as, general utility man, and taken up work once more in the Hide House.

Miss Hazel Arkley has been at her home at Essex Junction the past few days—went down to visit her parents and to observe her birthday.

R. W. Hulburd is attending County Court in Franklin county. He is interested in another suit brought to recover damages by parties who were in the railroad accident at Cambridge some time ago.

Miss Doria DeNio is spending a few days in Burlington. On Friday, she, accompanied by her mother, will go to Boston, where Miss DeNio will take up the study of vocal and instrumental music.

A goodly number from here took in the minstrel show at Morrisville Monday night. Some were highly pleased and others were not in the least gratified. Such is human nature. What pleases one is disliked by another.

George Brill took up his new work at Morrisville yesterday. His family will remain here for the present. While Clark is giving Brill instructions about his work, business here will be looked after by Herman Holbrook.

C. A. Knight and wife have gone to Stanstead, P. Q., for a two-weeks' visit with Mr. Knight's sister and other relatives. During their absence the affairs at the Savings Bank will be looked after by the efficient teller, Frank Culver.

The many friends of Dr. Dennis Finnegan will be pleased to learn that he has been appointed surgeon-dentist at Fort Ethan Allen—a position that he is well able to fill both by his gentlemanly qualities and his professional knowledge.

Next week comes the Fair at St. Johnsbury. If you want to have a real good time, see a Fair that is a Fair and enjoy a good outing, take your family and go over there for a day or two. See the advertisement on page three of this paper.

Repairs are being made on the street on Wiswell Avenue. This is particularly worthy of notice from the fact that for months that thoroughfare has been one long stretch of mud—black mud, the meanest, dirtiest mud known to mankind.

On Friday evening last, when Miss Alma Bugbee went to her rooms in the home of Mrs. James Brown, she was agreeably surprised to find that a party of young ladies from Morrisville had taken possession of her abode and had supper all ready for their "guests." The ladies had a fine spread and all enjoyed the surprise to a high degree.

Affairs at the L. C. A. are moving along very nicely under the management of the new principal. Professor Jenkins appears to be made of the right stuff and we shall be greatly disappointed if he does not prove to be just the right man for the place. We have suggested many times before, but will do so again, that no one can show their interest better in our schools than by occasionally visiting them. This applies to the high school as well as the district school.

A test of the improved water system was made on the buildings on the Common Monday afternoon last. With 250 feet of hose attached to a three-inch pipe a stream was thrown over the Court House and as high as the clock dials on the Town House. It is said that when the pipe is extended to a hydrant to be placed in the street in front of the Band Stand a stream can easily be thrown over the Town House. Other hydrants are to be placed about the village, and when this is done, the village will have good fire protection.
